

IN THE SPECIFICATION

*Page 20, replace the first full paragraph with the following:*

On the other hand, if the request for change has been made, processing is performed in accordance with the request (step S4). For example, as shown in FIG. [[16]] 8, devices of the MFP 200 are started, and a status display section 704 is caused to indicate that the respective devices are being started. Then, the window screen file is changed, and the changed file is then transmitted to the terminal apparatus (step S5). The process then returns to the step S1.
